

As an English department, we are passionate about developing pupil confidence with regard to reading, writing, speaking and listening. It is our mission to ensure every child leaves the school with an English qualification and is equipped to embark on the next stage of their life. The department aims to:

- Nurture an appreciation for modern and classic English literature.
- Encourage pupils to be inquisitive and analytical readers.
- Develop creative and analytical writing skills so that students can express themselves precisely, accurately, and in detail.
- Shape pupils into confident communicators, where pupils are encouraged to express and appreciate different opinions.
- Foster an enjoyment of reading and writing, giving pupils the space to take their own risks and become independent learners.

Key Stage 3 English lessons are engaging and culturally relevant and the curriculum is carefully designed to promote interest in the subject, and to inspire a love of language in our pupils. At Key Stage 3, pupils explore a range of literature including poetry, novels and non-fiction, from the 19th century to contemporary texts. They begin to develop an understanding and appreciation of language, contexts and the writer's craft. Pupils build on their prior knowledge of a writer's purpose and begin to analyse language and its effects. They also apply these skills and begin to develop their own writing. They plan, draft and edit their work in order to progress as sophisticated writers. Key Stage 3 focuses on shaping pupils into confident communicators, through discussion-based tasks, where pupils are encouraged to express and appreciate different opinions. We foster an enjoyment of reading and writing, giving pupils the space to take their own risks and become independent learners.

English lessons at **KS4** aim to nurture an appreciation for modern and classic English literature. Pupils explore a wide range of literature including poetry, novels and non-fiction, from the 19th century to contemporary texts. Pupils are encouraged to be inquisitive and analytical readers through the detailed exploration of language and structure and become compelling, persuasive and creative writers. There are opportunities to explore the contextual effect of the texts they are reading, thinking deeply about the impact in which they are received by different eras and audiences. Pupils will develop their speaking and listening skills, responding appropriately to any questions and feedback during spoken presentations.

The study of English at **KS5** encourages learners to develop their interest in and enjoyment of language and literature as they read widely and independently both set texts and others that they have selected for themselves. Students engage critically and creatively with a substantial body of texts and ways of responding to them; developing and effectively applying their knowledge of literary analysis and evaluation in writing. Students use linguistic and literary approaches in their reading and interpretation of texts and develop their skills as producers and interpreters of language. There are opportunities to consider the contexts of the texts they are reading and the contexts in which they are produced and received.
