

A-level Politics is relevant and challenging. It stretches students thinking, challenges preconceptions and traces political ideas back to their origin. It is academic yet also sometimes lively and controversial. The course content is broad and appeals to a wide range of learners who bring a broad spectrum of perspectives to the class.

Our aims include:

- helping students to understand how the country is run
- help students to build their own well substantiated opinions by teaching them where political ideas come from
- develop research, written communication and debate skills
- increase student confidence in speaking and writing
- promote an enjoyment and enthusiasm for the subject
- prepare students for further study
